

Top 5 reasons to upgrade Infor SyteLine

Infor SyteLine® is a robust ERP solution with built-in best practices and highly efficient process flows to help manufacturers improve productivity.

1

ENHANCED INDUSTRY CAPABILITIES WITH SIMPLIFIED UPGRADES

Infor SyteLine introduces a wide array of new, highly focused industry-specific capabilities, including specialized pricing and promotions and compliance features for manufacturers and distributors, as well as detailed industry packs tailored for Automotive, Printing & Packaging, Process, and Molding companies. With your industry capabilities included out of the box combined with Infor cloud technology, you can reduce or eliminate your customizations and modifications and make future upgrades much less intrusive and easier to implement.

2

BETTER ACCESS TO DECISION MAKING DATA

With an improved user experience, enhanced navigation, and easier access to information, Infor SyteLine helps you improve teamwork and gain competitive advantage. With our versatile new 360 forms and process forms, along with access to Infor CloudSuite BI and dashboards, you'll have the information you need to make better decisions faster.

3

MOBILE ACCESS ANYWHERE, ANYTIME

Because you can access Infor SyteLine through an ordinary web browser, you gain better control, greater visibility, and easier management across your entire enterprise. You're also not constrained to a specific type of end-user hardware, which gives you far greater latitude over how and where and when you access the information from the solution.

4

GLOBAL FINANCIAL CAPABILITIES

Infor SyteLine helps you stay current with respect to taxation, reporting, rule-based accounting, electronic banking, and government messaging requirements. It also supports the requirements of dozens of different countries. Its multi-book accounting capabilities help you stay flexible and grow your business around the world.

5

ACCESS ENTERPRISE CAPABILITIES FROM BEST-OF-BREED SOLUTIONS

Infor SyteLine is a complete manufacturing solution with the flexibility and sophistication you need to grow your business. When your business needs more advanced capabilities, Infor SyteLine includes access to best of breed solutions for integration, social collaboration, customer relationship management, product lifecycle management and more. As a result, you gain a whole new level of capabilities to manage your operations.

ROADMAP

2013	2014	2015	2016
10x	10x	Xi	Xi
Social, mobile, and UX	Automotive Suppliers	Pick/Pack/Ship enhancements	Currency engine
Single instance multi-site	Japanese localizations	Finance enhancements	ITAR compliance
Reseller Portal	Distribution for manufacturers	Human Resource enhancements	Infor Quality Management
Business Intelligence	Dimensional planning	Employee self-service portal	Mobile Service
Time Track	Molding and Fabrication	Germany, France, Spain, and Italy localizations	Global Payroll
	Infor Factory Track, Shop Floor	Process manufacturing	Office 365
	Supply Chain Execution	Infor CRM	Sweden, Norway, Denmark and Russia local.ly
	Demand Planning	Infor PLM Accelerate	
	Product Configuration on Customer Portal	Infor Query & Analysis	

STRATEGIC OBJECTIVES

Lower Total Cost of Ownership

Continue to minimize total cost of ownership with the expansion of industry and manufacturing solutions, such as adding support for multi-site to minimize the need for customizations.

Specialize by Industry

Deliver specialized functionality for focus industries, including Printing & Packaging, Automotive Suppliers, Distribution for Manufacturing, Injection Molding, Process Manufacturing, and Aerospace & Defense; add pre-packaged integration, role-based business process flows, and analytic content, including Electronic Signature, Service Management, Shop Floor Automation, Dimensional Inventory, and Approved Manufacturers.

Enable Adoption of High-value Extension Applications

Provide high value expansion opportunities for customers with packaged integrations. ION-based integrations to Expense Management, Enterprise Asset Management, Supply Chain Execution, mobile applications, e-commerce and Business Intelligence, point-to-point integrations, to Configure Price Quote and Product Lifecycle Management, Infor CRM, Infor PLM Accelerate and Query & Analysis to ION.

Make Upgrades Seamless

Enable customers to upgrade easily and efficiently through predefined content packs, cloud or phased upgrades, and mobile applications.

10x HIGHLIGHTS

Move to the Future with New ION Integrations to Extension Apps

Provides a more compelling extended suite with a less risky, lower cost way to take advantage of new, high value capabilities.

New, Modern User New, Modern User Experience—Social and Mobile

Reinvented user experience provides a completely modern solution, while delivering more robust functionality through compelling workflows built in to the application and across a broader suite. Our new 360 Forms replace 70+ forms with 4, and Process Builder helps you create your own workflows.

Expand Micro-vertical Functionality—Automotive Suppliers, Printing and Packaging

Helps Automotive Suppliers, Printing & Packaging Process Manufacturing, and Molding/Plastics fabrication companies to leverage and extend their core ERP investment with best of breed applications that are pre-integrated and share a common look and feel. Integrations are resilient to upgrades and enable increased business and IT alignment as new applications can be deployed rapidly with minimal training effort.

More Robust Business Intelligence

Helps customers and prospects get more value out of their deployment by enabling better, expanded visibility into the business at all levels, to drive better decision making.
